Mobile No. 027-896-3287

/ EMPLOYMENT HISTORY

>> Mechanical Engineer, Royal New Zealand Navy

2007 - 2017

Joining the navy in 2007 saw me undertake a huge array of different roles and subsets on the path to achieving my qualifications, including maintenance manager of the RNZN Dive Team, Diesel Inspector, Lead Propulsion Engineer onboard HMNZS Hawea.

>> Founder Noc Noc Ltd

2018 - 2020

After leaving the navy and seeking to grow as a contractor I saw a hole in the market to bridge the gap between SME's and local consumers. This led to me launching my first startup – Noc Noc, a mobile app B2C marketplace built in googles flutter and firebase. During my time with the startup I was mentored by one of the co founders of Xero who taught me the skills to navigate the startup environment.

/ EDUCATION HISTORY

>> Complete Web Developer Bootcamp, zerotomastery.io

2021

I took this course to bridge the skill gap required to gain a foothold in the industry as a junior developer. Over the duration of this course I completed various modules and course projects including: HTML, CSS, JavaScript, React, Redux, Hooks, Node.js, Express.js and multiple other skills, frameworks and libraries.
